Discipline:

We will use positive reinforcement and redirection. The child will be given the inappropriate behavior and the appropriate behavior. We will use a separation time at a different area in the classroom. We will not use **TIME OUT**. We reserve the right to withdraw any child with disruptive or aggressive behavior.

Biting:

Experts in the field of child development agree that biting is within a range of expected behaviors among toddlers 13 months to 3 years of age. Common reasons for biting are: exploration, teething, frustration (frequently due to lack of language), anxiety, mimicking, the need for autonomy and control.

At the first sign of biting, we evaluate the environment and activities at the time of the bite. If warranted, adjustments in the environment, routines, or the transitions in the classroom may be made.

If a bite occurs, the teacher will first attend to the bitten child by comforting the child and gently cleaning the bitten area with soap and water. Staff will complete an incident report for the bitten child. The child who has bitten will be removed from the immediate area and closely supervised for a period of time after the incident. We will complete an incident report for the child who has bitten and discuss the incident with the child's parents. It is important to remember that biting is a developmentally appropriate behavior. For children who continue to bite, more specific intervention will be initiated, including a conference with the family and the creation of an intervention plan. Each case will be assessed on an individual basis.

Immunizations/Vision and Hearing Screening:

Immunizations are required and **must be current at all times**. Please provide us with a current copy each time your child has immunizations. At age 4 your child is required to have a vision and hearing screening, please provide us with a copy of the screening.

We will conduct Tornado Drills monthly.

We will conduct Lock down Drills monthly.

Emergency Preparedness:

An emergency preparedness plan is designed to ensure the safety of children during an emergency by addressing staff responsibility and facility readiness with respect to emergency evacuation and relocation. The plan addresses the types of emergencies most likely to occur in your area including but not limited to natural events such as tornadoes, floods or hurricanes, health events such as medical emergencies, communicable disease outbreak, and human-caused events such as intruder with weapon, explosion, and chemical spill.

1) Evacuation:

- a) That in an emergency, the first responsibility of staff is to move the children to a designated safe area or alternate shelter known to all employees, caregivers, and volunteers.
 - b) Imnop Children's Academy will use a crib with wheels and/or the bye-bye buggy to get all the infants and children who cannot walk out and into the safety area. The older kids will use the nearest exit, walk in a line, and exit the building into the safety area.
 - c) There is a copy of the evacuation plan in every classroom and by every exit door.
 - d) Imnop will be using the old Busy Bees Pest Control building which is across the back parking lot. The address is 2812 Trinity Square #100 Carrollton, Texas 75006.
 - e) The attendance of each and every child will be taken by the classroom teacher with the classroom roll call sheet. The front office and office staff do a class count every 30 minutes and will keep that count sheet on them at all times. We will also use it to account for all the children in the building.
- 2) Communication:

- a) Imnop will contact all the parents or legal guardians of all the children once we get them all moved into the safe area, call the local authorities and do a head count. We have an emergency binder that has all the contact information for every child that is enrolled in Imnop Children's Academy and we will keep with us the whole time.
 - b) We will contact all local authorities (such as fire, law enforcement, emergency medical services, health department), parents or legal guardians, and the Texas Department of Family and Protective Services via cell phones that all office personnel will have on them at all times.
- 3) The office personnel has every child's parents or legal guardians phone number and emergency contact information in an emergency binder and will take it with us everywhere we go. Each classroom teacher with Imnop has an information clipboard or in a binder and must keep it with them at all times. They will have a classroom roll call sheet with a count of every child in their care. They also have a birthday sheet that has every child's birthday on it as well as an allergy sheet that is also kept with them. Every teacher will keep track of every child by doing a roll call every 30 minutes. The front office personnel will also do a count of all the children every 30 minutes.

Gang Free Zone:

A gang-free zone is a designated area around a specific location where prohibited gang related activity is subject to increased penalty under Texas law. The specific locations including child care centers. The gang-free zone is within 1000 feet of your child care center.
